Pivot Dump, Roll-Out Scrapers

For Challenger tractors from 225 hp. to 300 hp.

The Rome-Cepco towed pivot dump, roll-out scrapers are the perfect solution to a wide range of material moving challenges and are ideally suited for moving bulk material at a low cost and fast turnaround. The scraper line is built specifically for use with the medium to large Challenger Series Tractors. Three basic bowl sizes with two tire arrangements are available to allow these machines to work in both high compaction and extremely soft soil environments. These scrapers have proven themselves in applications such as agriculture, general construction and site preparation, road construction, levee construction, pond building, irrigation ditches, and land leveling.

FEATURES

- Ruggedly built with heavy-duty plate frame construction - material electrically welded for maximum strength and rigidity.
- Designed to allow maximal dump clearance in order to assure maximum control of discharged material.
- One-piece bowl reduces load compaction and greatly increases efficiency.
- Wide wheel spacing increases tire life.
- All wheel hubs are fully independent.
- Tandem hitch capability - hydraulic supply kit and auxiliary kit are standard.
- Bulkhead fittings protect hydraulic hookups.
- Bolt-on frost bit / stinger included.
