

Series:

MA

Multi-Application Rake

Compatible with any track-type tractor.

FEATURES:

- New design allows for bolted connection points. This allows for easy change from push arms to a C-Frame.
- Heavy duty rake for difficult land clearing conditions.
- Pile downed trees, stumps, underbrush and rocks for efficient removal or burning on site.
- Designed to carry the maximum load every time over the most rugged terrain and under extreme conditions.
- Nine teeth per rake allow soil to easily sift through while holding back debris.
- Standard radiator protection plate and brush rack provides ample protection for the radiator and front of tractor.
- Teeth are made out of Hardox material for the best tooth life in the industry.
