

Series:

RV

Vee Blade Cutter

Compatible with any track-type tractor.

FEATURES:

- Ruggedly built with all-welded construction . . . for maximum strength, rigidity and durability to assure long life with a minimum of maintenance.
- Excellent balance and floatation for better footing on soft ground.
- Serrated blades of tough T-1 steel shear small trees and vegetation off at ground level and windrow to one side . . . all in one pass.
- Center-mounted knife-sharp “stinger” splits and weakens large trees by concentrating full weight and horsepower of the tractor into powerful splitting and shearing force.
- Cutting patterns can be in any direction to meet wind and terrain conditions which might otherwise limit movement of the tractor.
- Rapid, economical removal of all vegetation at ground level with a minimum of soil disturbance.
